WORK EXPERIENCE

Junior Python Developer

Coding Space, Skardu

3 months

As a Junior Python Developer at Coding Space Skardu, I worked on building small-scale projects and improving existing Python code. My responsibilities included writing clean and efficient Python scripts, debugging errors, and collaborating with senior developers on real world tasks. I gained hands-on experience with basic data handling, file operations, and logic building. This role helped me strengthen my problem-solving skills and deepen my understanding of Python development.

Social Media Marketing (SMM):

5 months

Proficient in managing SMM panels to run, monitor, and optimize digital advertisement campaigns.

Ad Campaign Management:

5 months

Experienced in launching and analyzing Facebook, Instagram, and other platform ads via SMM panels.
